

Willemstad – Netherlands Antilles, April 15th 2022

As a result of the crisis in the Ukraine marine fuel prices have risen sharply over the past months, with price hikes accelerating since mid February 2022. Consequently Seacat Line will implement a combined BAF/ESF increase of US\$ 200/40ft container (any type) effective May 15th 2022, which is applicable to both northbound and southbound containers.

Seacatline is also announcing the implementation of a General Rate Increase on northbound services of US\$ 100/40ft container (any type) – US\$ 50/20ft container (any type) between Costa Rica and Florida, effective May 15th 2022.
